COSMO GROUP

Poznan, 23.05.2025

Cosmo Group Sp. z o.o.
ul. Jasielska 10A
60-476 Poznań

Dear Customers,

We kindly remind you of the upcoming changes due to regulatory requirements. In accordance with EU Commission Regulation (EU) 2024/197 of 19 October 2023, the ingredient diphenyl (2,4,6-trimethylbenzoyl) phosphine oxide (TPO) has been reclassified due to a regulatory change at European level, as a result of which cosmetic products containing TPO will no longer be allowed to be sold or made available on the EU market from 1 of September 2025.

The ban impacts both distributors and manufacturers and affects our product range.

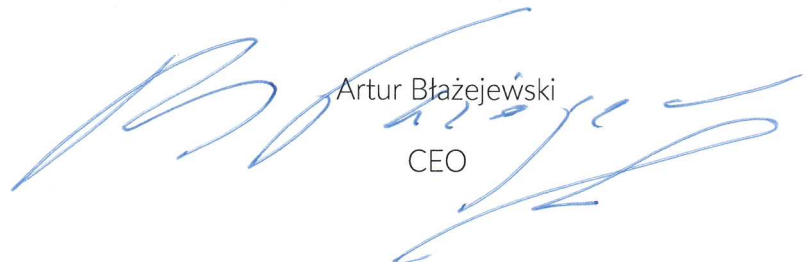

Please ensure that all Cosmo Group products containing the TPO ingredient are withdrawn from sale by 31 August 2025. Please find attached a list of the products.

From a purchasing and inventory management planning perspective, we therefore recommend adjusting order and stock levels to accommodate the upcoming change.

In the interest of continuity of cooperation, we would also like to inform you that the formulations of our products have been adapted to the new requirements and, as of July 2025, Cosmo Group will offer TPO-free products in compliance with the current legislation.

If you have any questions on this subject, please do not hesitate to contact your Cosmo Group Sp. z o.o. account manager.

Yours sincerely

Artur Błazejewski
CEO
