

30th January 2025

To whom it may concern;

Nesperta Lab sp. z o. o. hereby provides important information regarding the upcoming regulatory changes in the cosmetics industry. Effective from 1st September 2025, **Trimethylbenzoyl Diphenylphosphine Oxide** (CAS: 75980-60-8) will be prohibited for use in cosmetic products.

We kindly ask you to take the necessary steps to cease the distribution and sale of products containing Trimethylbenzoyl Diphenylphosphine Oxide from 1st September 2025.

At Nesperta, we have embraced this requirement as an opportunity for innovation – not only have we adapted our products to meet the new regulations, but we have also improved their formulas to ensure even higher quality and a better experience for our customers.
